

Supplies for Machine Mastery Classes (all brands of machine)

Please bring to class:

Your new sewing machine

All accessories (if it is an embroidery machine you do not need to bring the module and hoops for the machine mastery—bring those for the Embroidery class)

Machine Manual

Pen or Pencil

Small scissors for clipping threads

Spool of all purpose sewing thread (you may purchase this at class)

It is important that you have all the feet and accessories that came with your machine so that you can learn about these as well as the machine.
